Jasper-Pulaski Wildlife Area - Jasper-Pulaski is a fall gathering place for migrating sandhill cranes. At dusk cranes fly into the area by the thousands from every direction. Peak numbers occur from late October to mid-November. Take IL 114 east from Momence and proceed on IN 10. Keep going straight (regardless of the route numbers) until you must turn. Then go south ½ mile and turn east again. It is then about 3 miles to Jasper-Pulaski. It is a one hour drive from Momence. It is best to arrive a bit before the sun begins to set.

2022 Spring Count - Thanks to all who participated in the spring count on May 7. We observed 127 species in Kankakee County. Our record is 161 species in 2009.

Christmas Count - Jed Hertz is again organizing the Christmas Bird Count. We will send an announcement when the date is confirmed. Contact Jed at jhh_60910@yahoo.com or 815-937-9530 if you'd like to participate.
